

# LIST OF TABLES

	Page
1. Locations and descriptions of municipalities and receiving streams in this study . . . . .	5
2. Descriptions of wastewater treatment plants . . .	7
3. Automated analytical methods for chloride and nutrient concentrations . . . . .	13
4. Comparison of chloride, nitrogen, and phosphate concentrations at upstream and wastewater effluent stations in the extensive study . . . . .	18
5. Chloride and nutrient concentrations at the main Bridgers Creek and tributary stations . . . . .	23
6. Chloride and nutrient concentrations at the main Deep Creek and tributary stations . . . . .	26
7. Percentages of sewage nutrient change (SNC) below outfalls on Bridgers Creek and Deep Creek . . . .	42
8. Percentages of wastewater nutrients removed in North Carolina Coastal Plain swamps below wastewater treatment plants . . . . .	46
